

Unleash the Power of Data-driven Automation and Robotics with Full-Stack Capabilities That Make Your Factory More Productive and Profitable

Smart process vertically integrates full-stack automation capabilities and robotics to real-time data analytics, providing solutions that solve problems, maximize productivity, and provide your business with real-world advantages.

Knowledgeable - Reliable - Industry Trusted

Our Systems Provide Real-Time Data And Optimization Capability So That You Will Always Know EXACTLY What Is Happening In Real Time - Without Wasting Time Or Money

Vertically integrated and diverse automation skills from controls, motion, and connectivity to data analytics, empowering measurable, workflow automation systems.

How We Can Help You:

Full Stack Capabilities

- Precise Customization
Exact Solutions Catered to Your Operation and Workflows

Real-World Experience

- Decades of Experience
Implementing Cutting Edge, Custom Solutions
- Our Systems Are Already Powering Some of The Leading Operations In The Nation

Real Time Optomization

- Fine-Tune Your Workflows and Operations With Real-Time Data
- Optimize Your Systems To Maximize Production and Profitability

Why Choose Bright IA

Deep Industry Experience

40+ years of combined experience. Success in a number of verticals ranging from food and beverage, aviation, plastic and rubber manufacturing

Proven Track Record

Trusted by industry leaders and experts in the world of manufacturing

Rapid Value Creation

We are committed to providing innovative solutions that will help create a better tomorrow for everyone

De-bottlenecking
Rapid ROI and Cycle Times
Improving Performance by 15-45% or More
